June 27th, 2024

Dear Members of the Selection Committee,

I am delighted to recommend Dr. Teerapong Panboonyuen for the Global Young Scientist Summit (GYSS 2024) in the Republic of Singapore. Dr. Panboonyuen is a postdoctoral researcher in the Department of Survey Engineering at Chulalongkorn University, where he works under my supervision. He holds a Ph.D. in Computer Engineering from Chulalongkorn University, with a specialization in artificial intelligence, deep learning, and remote sensing.

Dr. Panboonyuen has consistently demonstrated exceptional research capabilities, particularly in integrating AI and deep learning with remote sensing technology. His innovative methodologies have significantly advanced our understanding and analysis of geospatial data. Moreover, his work has been published in several reputable journals, reflecting his commitment to academic excellence and his ability to contribute valuable insights to the scientific community.

In addition to his technical expertise, Dr. Panboonyuen is a dedicated mentor and collaborator known for his leadership and teamwork skills. His participation in GYSS 2024 will undoubtedly benefit both his professional growth and the summit's collaborative efforts. I strongly endorse his application and believe he will make substantial contributions to the event. I therefore give him my full recommendation.

Your Sincerely,

A handwritten signature in blue ink, reading "Chalermchon Satirapod".

Chalermchon Satirapod, Ph.D.
Professor
Department of Survey Engineering
Faculty of Survey Engineering
